LOOKING AT THE FUTURE
FROM EVERY ANGLE

The Naples Children & Education Foundation, founders of the Naples Winter Wine Festival, fills a critical void for at-risk and underprivileged children in Collier County as the largest single source of funding for their essential services.

NCEF strives for continuous improvement and to ensure its funds are being utilized in the most effective way to meet the community’s needs. Investments in child advocacy, early learning, education programs, healthcare and more enable NCEF and its partners to transform our community one issue at a time.

See how our combined efforts have served over **275,000** children in our upcoming 2019 Social Impact Report.
